
PathWise Announces IMB and IMDA Participation in Upcoming CAPA Workshop

1/15/2009 – Salt Lake City, Utah – This Spring, PathWise is pleased to add content experts from the Irish Medicines Board (IMB) and Irish Medical Device Association (IMDA) in their upcoming CAPA Workshop to be held in Dublin, Ireland. The event, to be held May 26-27, will offer in-depth training on Corrective and Preventive Action techniques to help Irish organizations both meet and exceed increased regulatory standards. The PathWise CAPA session will offer a closed-loop approach, examining specific areas such as Issue Review, Root Cause Analysis, Implementation and Effectiveness Checking to help improve attendee problem solving skills and eliminate the cause of repeat investigations. In addition to the CAPA material presented by PathWise, regulatory experts from the IMB will host a general session and Q&A panel during the event. The general session will include topics such as Common Regulatory Struggles Faced by Irish Manufacturers, Best Practices for Quality System Improvements and Future Policies and Regulatory Standards. The following panel discussion will allow opportunities for questions on more specific areas of attendee concern, where IMB and PathWise panel members will share insight from their combined industry and regulatory experience. Representatives from the IMDA will also be on site to answer any questions you may about the benefits of their membership, sharing industry trends, educational initiatives and upcoming partner events.

For more information on the CAPA Workshop or to register a member of your organization, please click [here](#), or contact us at **886.580.PATH**.

The Irish Medicines Board

*The mission of the **Irish Medicines Board (IMB)** is to protect and enhance public and animal health through the regulation of human and veterinary medical products. Among its many activities, the IMB regulates clinical trials, as well as monitoring and inspecting products on the market to ensure their safety and efficacy.*

*The **Irish Medical Devices Association (IMDA)** is a proactive membership organisation representing the medical devices and diagnostics sector. Its broad focus is to promote and support the sustainable development and profitable growth of Ireland's multinational and indigenous medical device and diagnostic companies.*

Compliant, Effective, Efficient.
